

Microsoft 365 Teamwork Assessment

Get a customized roadmap for improved teamwork across your entire organization.

Why focus on teamwork?

Today, organizations rely on teamwork, with employees working on twice as many teams as they did just five years ago, and information workers spending **50% more time collaborating** with co-workers, outside contractors, suppliers and customers.* To succeed, you need collaboration and communication tools that empower your workforce to be more agile, efficient, and secure.

Research reveals that businesses investing in teamwork are 5X more likely to be high performing. They see **increased efficiency** as teams share files and collaborate on documents in real time; **greater flexibility** as ad hoc teams come together to meet specific challenges; **increased knowledge sharing** as communications are streamlined on a common platform; and **enhanced security** as collaboration moves to a unified platform for teamwork.

Teamwork Assessment

The Teamwork Assessment will take an in-depth look at your business goals and give you an actionable roadmap for teamwork that will ensure your employees and suppliers can collaborate effectively and share information securely no matter where they work.

Accelerate digital transformation by aligning your business opportunities and challenges with your IT maturity

Gain holistic view of your future state by reviewing capabilities across security, teamwork, meetings and change management

Receive an actionable plan which will assist you on your transformation journey

You'll receive:

- An evaluation of your current collaboration and communications tools
